High School						
Essential	School Health	California Health Skill Posters for High School	The posters are California specific. That means that they directly correlate with the National Health Education Standards (NHES), but have titles that are unique to California. Seven of the standards are skill standards and one is concepts. The communications standard has two posters, Interpersonal Communications and Refusal Options because the steps and cues for the refusals sub-skill are unique. Health Education Skills: - Analyzing Influences - Accessing Valid Information - Interpersonal Communication - Refusal Options - Decision Making - Goal Setting - Practicing Health-Enhancing Behaviors - Health Promotion	**posters**	Eight 17x11 posters	29.95
COVID-19	Infection Prevention	Infection Prevention Lessons for Teens Includes COVID-19 Information	Fun lessons teach teens how to stop the spread of germs. The COVID-19 pandemic has heightened the importance of education about effective ways to help stop the spread of germs. Topics include: pathogens/germs, infection, how germs are spread, and methods of prevention. This module contains three lessons appropriate for adolescents/middle school students and three lessons appropriate for teens/high school students. Every lesson has distance learning adaptations including narrated PowerPoint presentations. Digital downloads for activity sheets, fact sheets, and PowerPoint presentations.	curriculum	binder	64.95
